Manager's Report –

Mr. Boyd noted that the Inkerman Road paving work would start on Thursday (10/12/23) for road saw cutting and drainage work with paving completed shortly thereafter. Don Totino, Borough Engineer, will inspect the project since Mr. Boyd will be on vacation from Thursday until Sunday night.

Williams Gas agreed to repave all of E. Saylor Ave. and the Dogwood Drive hill section due to truck traffic from the recent gas pipeline project. The price escalation for Inkerman Road delay, due to the gas pipeline project, will be paid out of the remaining state grant funds. This will allow Williams Gas to pave more of the Dogwood Drive hill instead of paying for the escalation clause.

Inkerman Road insurance claim for damaged cameras was approved by the trucking company that caused the damage. Four (4) new units are on the agenda to be approved to replace those cameras.

The state Liquid Fluids audit was completed and copies presented to councilmembers and the mayor. No findings were noted in the report.

The pension valuations were completed by our actuary and presented to councilmembers and the mayor. The state pension aid was received for this year and will be forwarded to the pension funds along with the municipal minimum obligation.

Mayor's Report –

Mr. Kennedy briefly spoke on the Community Bank proposal that would give the borough more interest on some of the money that is sitting in the accounts and asked council to review and discuss at the next council meeting. Mr. Yastremski agreed and indicated it would be put on for next month.

H) C. Casacci 10 Walnutwood Drive Borough Property Tree Issues –

Mr. Boyd explained that he received a request from the homeowner at 10 Walnutwood Drive to cutdown trees on the borough property that is behind his property. This is the property purchased by the borough that consists of many acres. Mr. Casacci believes the birch trees are problematic and could cause damage to his property should they fall.

After some discussions, and a request from a resident (Frank Desiderio) in the audience to allow him to quote the tree cutting, Mr. Yastremski asked if everyone is in agreement that, if the trees are causing a hazard, they would be removed up to a cost of \$1,000.

Motion to Approve: Anthony D'Eliseo

Second: Paul Benderavich

Roll Call:

Ayes were unanimous and motion carried.

I) Inkerman Road Flood Abatement Detention Ditch –

After the recent rainfall from the past weekend, Mr. Yastremski noted that the water reached the shoulder of the road. It was a significant rainfall but not anything out of the normal. Mr. Benderavich believes the pressure needs to be removed from the water on the side of the road after heavy rainfalls. He would like to see a deeper trench down the pole barn road side and the removal of a high spot in the basin area. This would allow the area to drain better. Mr. Boyd suggested getting the borough engineer Don Totino to look at it but Mr. Benderavich doesn't think he needs to do so since all that needs to be done is getting in there and taking a couple of swipes out. Further discussions continued on using Don E. Bower, Inc. to address the situation while in town doing other work and the need to take care of the situation with the pending road paving work on

Inkerman Road. Mr. Benderavich doesn't think it would be more than three grand to do the work and take the bump out. Mayor Kennedy believes this would protect the investment.

Mr. Yastremski asked for a motion to authorize the borough manager to contract with Don E. Bower, Inc. for the additional work up to \$3,000 to alleviate the water situation.

Motion to Approve: Paul Benderavich

Second: Anthony D'Eliseo

Roll Call:

Ayes were unanimous and motion passed.

C) 1st Reading of the 2024 Laflin Borough Operating Budget –

Mr. Yastremski reviewed the process of preparing for the first reading of the proposed budget that includes examining the actual data to date. This is a very preliminary budget due to the fact the actual data for revenues and expenditures will change for the next two months as he and Mr. Boyd can get a better idea on where things will fall.

Mr. Yastremski read the proposed first draft, noting a total revenue of \$1,179,379. that includes the grants awarded to the borough from various sources. This number also includes a tax anticipation note (TAN) of \$125,000.00.

The expenditures came in at \$1,236,559 creating a deficit of \$57,181. Mr. Yastremski noted that over the next few months this deficit will come down as expenditures are reviewed and more revenues come in over the next three months especially in earned income proceeds.

Mr. Yastremski asked if anyone had questions on the proposed budget. No questions were asked. Mayor Kennedy thanked Mr. Yastremski and Mr. Boyd for all the hard work they did on preparing the budget thus far.

Mr. Yastremski asked for a motion to approve the first reading of the proposed operating budget.

Public Comments:

Joseph McCabe, 4 Pinewood Drive – asked councilmembers or Mr. Boyd if they knew any information about the white SUV that was parked in front of his house on Wednesday (10/4) on Pinewood Drive. He wanted to know if there was any rumors or speculation about the vehicle. Mr. Boyd responded to say that no one has contacted him about the vehicle. Mr. McCabe also asked about the administrator for the Nextdoor social media app since he believes there is a lot of censoring going on in that app. Mr. Boyd and Mr. Benderavich responded and indicated Laflin Borough is not officially involved with the app site and no information was available as to who administers Nextdoor Laflin.

He asked council to address the walking track asphalt, ballfield grass sod and infield DiamondTex dirt to make it right for the kids of Laflin & Plains. Mr. Boyd explained that the Department of Environmental Protection (DEP) stopped Williams Gas Company from completed the ballfield in its entirety until a new DEP permit was obtained. Once approved, Williams Gas Co. will complete work on the fields.

Some discussions followed on the condition of the walking track around the ballfields; the problems with the embankment between the creek and walking track; tree roots causing problems with the track; and if the park is officially open to the public or not.

Mr. McCabe also spoke on property damage by an erratic driver, who is a resident of the borough, that had a health episode at 40 Redwood Drive. The resident was followed home from Danko Fitness by an employee that was concerned on his health and witnessed the resident take out a mailbox on Redwood Drive driving erratically. Mr. McCabe noting this individual is already on the borough radar but he is concerned.

Frank Desiderio, 1 Pinewood Drive – asked if anyone has complained about door-to-door solicitors going around representing a fraudulent company. Mr. Boyd responded to say he only received a call from Mr. Desiderio. Mr. Desiderio went on to explain in more detail what happened in the situation. Mr. Boyd explained he viewed the video at the borough building, Rt.315 intersection and lower Laflin cameras for a 30-minute time period but couldn't find the white Mercedes SUV vehicle pass the cameras.

Further discussions continued on the matter. Mr. Desiderio believes the solicitors were gang members based on the tattoos seen on the one person. Further discussions continued.

Michael Grebeck, 14 Fairfield Drive – asked who monitors the security cameras in town since the borough doesn't have a police force and how much did they cost. He asked how many cameras were in town. Discussions continue on many various topics

Walter Wrazien, 38 Redwood Drive – ask if residents have the right to come to the borough building and view the videos. He believes the residents own the cameras and should have access to them as needed. Solicitor Sanguedolce, Esq. explained the camera policy that is being worked on for future passage. Basically, a police report would need to be filed with the state police and the troopers would view the video of the incident, if available. Much discussion continued.

Mr. Wrazien indicated that there is 'targeting' going on where properties are being bought and nobody moves into the home. The properties are bought through special government programs. So how does the borough protect itself from intercity programs coming to Laflin? He continued to explain the situation. He believes council can do something that can be put forth (pass an ordinance) that can be acted on if a property is purchased and not lived in with two months. Much discussion continued.

Vincent Zerblas, Non-resident, Jenkins Township DPW – explained a situation that happened in Jenkins Township where properties are being bought and used as an Airbnb (short term rental). Much discussion continued.
